An Adaptation of the Transparent-Chamber Technique to the Mouse, by GLENN H. ALGIRE ---- 1

Microscopic Studies of the Early Growth of a Transplantable Melanoma of the Mouse, Using the Transparent-Chamber Technique, by GLENN H. ALGIRE ---- 13

Estimation of Growth Rates of Tumors, by HAROLD F. BLUM ---- 21

Morphology and Growth of Subcutaneous Tumors Induced With Carcinogenic Hydrocarbons in Strain C3H Male Mice, by MICHAEL B. SHIMKIN and W. RAY BRYAN ---- 25

Ultracentrifugal Studies of Some Complexes Obtained From Mouse Milk, Mammary Tumor, and Other Tissues, by HERBERT KAHLER and W. RAY BRYAN ---- 37

Method for the Quantitative Morphologic Analysis of Tissues, by H. W. CHALKLEY ---- 47

Depolymerases for Yeast and for Thymus Nucleic Acids in Normal and Neoplastic Tissues, by JESSE P. GREENSTEIN ---- 55

Note on the Colloid Osmotic Pressure of the Serums of Rats Bearing the Transplanted Jensen Sarcoma, by JESSE P. GREENSTEIN and J. W. THOMPSON ---- 63

Serologic and Anaphylactic Reactions of the Cathepsins of Normal and Neoplastic Tissues, by MARY E. MAVER and MORRIS K. BARRETT ---- 65

Accuracy and Reproducibility in the Induction of Tumors With Ultraviolet Radiation, by HAROLD F. BLUM ---- 75

Chemical Treatment of Tumors. V. Isolation of the Hemorrhage-Producing Fraction From *Serratia marcescens* (*Bacillus prodigiosus*) Culture Filtrate, by M. J. SHEAR and FLOYD C. TURNER ---- 81

Chemical Treatment of Tumors. VI. Method Employed in Determining the Potency of Hemorrhage-Producing Bacterial Preparations, by M. J. SHEAR, ADRIEN PERRAULT, and JOHN R. ADAMS, JR ---- 99

Chemical Treatment of Tumors. VII. Nature of the Hemorrhage-Producing Fraction From *Serratia marcescens* (*Bacillus prodigiosus*) Culture Filtrate, by J. L. HARTWELL, M. J. SHEAR, and JOHN R. ADAMS, JR ---- 107

590655—44

Page

Chemical Treatment of Tumors. VIII. Ultracentrifugal and Electrophoretic Analysis of the Hemorrhage-Producing Fraction From *Serratia marcescens* (*Bacillus prodigiosus*) Culture Filtrate, by HERBERT KAHLER, M. J. SHEAR, and J. L. HARTWELL 123

Production of Malignancy in Vitro. I. Method of Cleaning Glassware, by WILTON R. EARLE 131

Production of Malignancy in Vitro. II. Photomicrographic Equipment, by WILTON R. EARLE 135

Production of Malignancy in Vitro. III. Microcinematographic Equipment, by WILTON R. EARLE and LAURENCE R. CRISP 147

Production of Malignancy in Vitro. IV. The Mouse Fibroblast Cultures and Changes Seen in the Living Cells, by WILTON R. EARLE 165

Production of Malignancy in Vitro. V. Results of Injections of Cultures into Mice, by WILTON R. EARLE and ANDERSON NETTLESHIP 213

Production of Malignancy in Vitro. VI. Pathology of Tumors Produced, by ANDERSON NETTLESHIP and WILTON R. EARLE 229

Principles of Species Adjustment. I. Continuous Exposure, by R. R. SPENCER and M. B. MELROY 249

Principles of Species Adjustment. II. Discontinuous Exposure, by R. R. SPENCER, M. B. MELROY, and DOROTHY CALNAN 257

Experimental Chemotherapy of Tumors in Mice, by FLOYD C. TURNER 265

Enzymatic Activity of Normal Adult, Regenerating, Fetal, and Neoplastic Hepatic Tissues of the Rat, by JESSE P. GREENSTEIN and J. W. THOMPSON 271

Range in Activity of Several Enzymes in Normal and Neoplastic Tissues of Mice, by JESSE P. GREENSTEIN and J. W. THOMPSON 275

Note on the Liver Catalase Activity of Pregnant Mice and of Mice Bearing Growing Embryonic Implants, by JESSE P. GREENSTEIN and HOWARD B. ANDERVONT 283

Effects of Feeding Heated Lard to Rats, With a Histologic Description of the Lesions Observed, by HAROLD P. MORRIS, C. DONALD LARSEN, and STUART W. LIPPINCOTT 285

Influence of Irradiation-Killed Cells on Tumor Growth, by PAUL S. HENSHAW 305

Induction of Pulmonary Tumors in Mice With Ethyl Carbamate (Urethane), by ANDERSON NETTLESHIP and PAUL S. HENSHAW 309

Ascorbic Acid Content of Tumors and Homologous Normal Tissues, by WILLIAM VAN B. ROBERTSON 321

A Spontaneous, Transplantable, Adrenal Cortical Tumor Arising in a Strain C Mouse, by ALBERT J. DALTON, JESSE E. EDWARDS, and HOWARD B. ANDERVONT 329

Incidence of Leukemia in Physicians, by PAUL S. HENSHAW and JAMES W. HAWKINS 339

Organizational Structure and Activities of State Cancer Programs, by JAMES W. HAWKINS 473

Page

Measurement of Epithelial Growth in Surgical Wounds of the Rabbit's Ear, by PAUL S. HENSHAW and HENRY L. MEYER ---------- 351

Injection and Clearing Method for the Rabbit's Ear, by THELMA B. DUNN and ALBERT M. KESSEL---- ---------- 359

Multiple Tissue Carrier for Histologic Techniques, by ALBERT M. KESSEL-- 361

Production of Malignancy in Vitro. VII. Metabolism and Biotin Vitamer Content of Tumors Produced, by DEAN BURK, WILTON R. EARLE, and RICHARD J. WINZLER---------- 363

Chromosomal Changes in Epidermal Carcinogenesis, by J. J. BIESELE and E. V. COWDRY---------- 373

Studies on Hepatomas. I. Size and Spacing of Multiple Doses in the Induction of Carbon Tetrachloride Hepatomas, by ALLEN B. ESCHENBRENNER---------- 385

A Transplantable Osteogenic Sarcoma Originating in a C3H Mouse, by MORRIS K. BARRETT, ALBERT J. DALTON, JESSE E. EDWARDS, and JESSE P. GREENSTEIN---------- 389

Importance of Genetic Influence on the Occurrence of Mammary Tumors in Virgin Female Mice, by WALTER E. HESTON and HOWARD B. ANDERVONT- 403

Effect of Amino Acids on the Induction of Leukemia in Mice, by JULIUS WHITE, G. BURROUGHS MIDER, and WALTER E. HESTON ---------- 09

Effect of Diethylstilbestrol on Mammary-Tumor Formation in Strain C3H Mice Fed a Low Cystine Diet, by FLORENCE R. WHITE and JULIUS WHITE---------- 413

Blood Proteose and Cancer, by RICHARD J. WINZLER and DEAN BURK---- 417

Administration of the National Cancer Institute Act, August 5, 1937, to June 30, 1943, by ORA MARSHINO---------- 429

Results in Breast-Cancer Therapy Applied to Control Programs, by JAMES W. HAWKINS---------- 445

Chemical Treatment of Tumors. IX. Reactions of Mice With Primary Subcutaneous Tumors to Injection of a Hemorrhage-Producing Bacterial Polysaccharide, by M. J. SHEAR---------- 461

Experimental Roentgen Injury. I. Effects on the Tissues and Blood of C3H Mice Produced by Single Small Whole-Body Exposures, by PAUL S. HENSHAW---------- 477

Experimental Roentgen Injury. II. Changes Produced by Intermediate-Range Doses and a Comparison of the Relative Susceptibility of Different Kinds of Animals, by PAUL S. HENSHAW---------- 485

Experimental Roentgen Injury. III. Tissue and Cellular Changes Brought About by Single Massive Doses of Radiation, by PAUL S. HENSHAW------- 503

Experimental Roentgen Injury. IV. Effects of Repeated Small Doses of X-Rays on Blood Picture, Tissue Morphology, and Life Span in Mice, by PAUL S. HENSHAW---------- 513

Minimal Number of Anesthetic Treatments With Urethane Required to Induce Pulmonary Tumors, by PAUL S. HENSHAW and HENRY L. MEYER-- 523

590655—44——2

Page

Changes in the Adrenal Glands of Rats Following Exposure to Lowered Oxygen Tension, by ALBERT J. DALTON, ELLIS R. MITCHELL, BENJAMIN F. JONES, and VIRGINIA B. PETERS 527

Origin of Hepatoma E of Strain C3H Mice, by EMILY WALCOTT EMMART 537

Production of Malignancy in Vitro. VIII. Observations on the Mitochondria and Golgi Material, by ALBERT J. DALTON and WILTON R. EARLE 539

Ciliated Cells of the Thyroid of the Mouse, by THELMA B. DUNN 555

Growth Rate and Development of Tumors Induced With Ultraviolet Radiation, by HAROLD F. BLUM 559

Review of Serodiagnostic Tests for Cancer, by MARY E. MAVER 571

Influence of Environment on Mammary Cancer in Mice, by HOWARD B. ANDERVONT 579

Effect of Two Azo Compounds When Added to the Diet of Mice, by HOWARD B. ANDERVONT, JULIUS WHITE, and JESSE E. EDWARDS 583

Administration of 3,5-Cholestadiene and Dicholesteryl Ether to Mice and Rats, by C. DONALD LARSEN and MORRIS K. BARRETT 587

Test of Desoxycholic Acid for Carcinogenicity in Rats and Mice, by MORRIS K. BARRETT and C. DONALD LARSEN 595

ERRATA AND EMENDATION

Page 48, figure 1 is upside down.
Page 105, reference 4, there should be no hyphen between *Serratia* and *marcescens*.
Page 288, column 1, line 7, 250° should be 350°.
Page 363, column 1, lines 10–11, "by Burk (*6–13*)" should be changed to read "(see Burk (*6–13*).)"
Page 489, column 2, fourth line under heading "Histopathology," "mm." should be "μ".
Page 501, reference 1, "Hensćaw" should be "Henshaw," and reference 6, "Peahler" should be "Pfahler."
